

Rainy Day Rides

Destination 5. Cape Museum of Natural History

The Short Version- 6 Discovery Hill Road, right off of 6A is the Green Briar Nature Center. It houses small animals & reptiles you can visit for free when the center is open. Now that the center is closed, you can still responsibly enjoy the flower garden, the dock to watch turtles & water fowl, and the trails behind the Nature Center.

The Longer Version- Meander along 6A until you reach the museum. The walk through the marsh is adventurous but easily done with a two year old. You may want to wear your rain boots for this one!

The museum hopes to reopen in June and has a ton of family-friendly programming. Check out their website for Shark Week, Family Friendly Field Walks & lots more! <http://www.ccmnh.org/KidSummer-Day-Program>

Here is the address:

The Cape Cod Museum of Natural History
869 Route 6A
Brewster, MA 02631
